

DIGITAL SIGNATURE (DSC)

About DSC

- DSC Certificate makes use of Public Key encryptions (or say electronic signature) meaning data has been digitally signed or encrypted by a private key can only be decrypted by its corresponding public key.
- It is helpful in authenticating the personal information details of the holder when conducting business online. You can contact **CVMTAX** to buy Digital Signature Certificate and other related services like DSC renewal for the purpose of electronic signature.

A Digital Signature Certificate is a secure digital key that validates and certify the identity of the person holding this certificate, issued by a Certifying Authority

There are three types of digital signatures -

- ✓ Class I – Class 1 digital signature is used for protecting e-mail communications.
- ✓ Class II – Class II digital signature is used for [IT return filing](#), [company registration](#), obtaining DIN, DPIN etc.
- ✓ Class III – Class III digital signature is used for E-Tendering & participating in E-auctions.

What are the documents required for DSC Certificate or DSC Renewal?

- ✓ [Aadhaar Card](#)
- ✓ Email-id
- ✓ Mobile number for OTP purpose
